Akrawin Datchanee

Full-Stack Developer

Nong Chok, Bangkok, Thailand | +66 98 283 7003

onlyakr2477@gmail.com | akrawin.com | github.com/Onlyakr

Summary

Full-stack developer focused on software fundamentals, AI-assisted development, and AI integration.

Education

King Mongkut's Institute of Technology Ladkrabang — Chumphon, Thailand
Bachelor of Engineering in Computer Engineering, GPA 3.83 — 2023 - Expected 2027

King Mongkut's University of Technology North Bangkok — Bangkok, Thailand
Pre-Engineering in Electrical Engineering, GPA 3.10 — Graduated 2023

Experience

Full-Stack Developer Intern, SCG Thung Song - Nakhon Si Thammarat, Thailand — May 2025 - Present

- Gathered requirements and designed user flows for a plant digitalization system
- Migrated a legacy Express system to NestJS and Next.js
- Built an AI assistant with an LLM router and code-driven workflows
- Implemented multi-tenant data isolation and role-based access control
- Implemented JWT authentication with refresh-token rotation
- Built validated data imports and analytics dashboards

Projects

TasteTrail | *Next.js, TypeScript, Tailwind CSS* — Jul 2025 - Oct 2025

- Built the frontend of a restaurant review platform
- Built review, restaurant management, and map features

POS System | *Next.js, TypeScript, Tailwind CSS* — Aug 2025 - Sep 2025

- Built the frontend of a point-of-sale web app with barcode checkout, receipt printing, and a sales dashboard
- Implemented role-based route protection

Technical Skills

Languages: TypeScript, JavaScript, Python, SQL

Frameworks: Next.js, React, NestJS, Express, FastAPI

Libraries: Tailwind CSS, Zustand, TanStack Query, React Hook Form, Zod, LangChain

Databases & ORM: PostgreSQL, SQL Server, Prisma, Drizzle

Developer Tools: Git, GitHub, Docker, Postman, Claude Code
